HOPE INCREASED FOR INSTITUTION

Legislature Acts to Aid Retarded Children

Recent action by the Louisiana Legislature raised the hopes of "many thousands" for an institution for retarded children in the New Orleans area, Mrs. William Padel said Saturday.

Mrs. Padel, president of the Greater New Orleans Association for Retarded Children, said she referred to legislative action authorizing the state hospitals department to try to procure a 500-acre site in Belle Chasse for the institution.

In a companion move, the Legislature requested the hospitals department to establish a medical research center for mentally retarded persons to be established in the New Orleans metropolitan area.

The land being sought for a South Louisiana Rehabilitation and Research Center for treatment of the mentally retarded, exceptional chidlren, alcoholics and others in need of special care presently comprises the naval ammunition depot.

Informed sources advised Saturday that the head of the state department of hospitals, Charles Rosenblum, had already initiated steps to effect a transfer by applying for the land.
