

And half the time trying to keep out
the flies.

The same afternoon that you went
away,

Lrene was real sick, and had to
give up her play.

The chills and the fever both, did
her up quite.

And I had to take care of her, all
through the night.

But with "Sage tea" and "Quinine"
and things good for ills,

I soon stoped the fever, and broke
up the chills.

And now she is playing as happy
as ever

With first Johnie, then Roy, then
all three together.
