A bit of advice

Oh! Celia dear, a family,
You have to care for now.

I hope you keep them well behaved
And flirting dont allow.

If they dont care to listen:

To things you'd have them do.

Why, you might try the method

"Of the woman in the shoe.

Perhaps you might be doubtful

Of the issue, if you should,

Just try some other tactics,

For I think that they'll be good.

So just treat them very kindly,

As Christmas time draws near,

And I send you all a greeting

For a successful, happy, year.
