

I PROTEST.

Why send the Doctors to the War.
Who specialize in babies.
Their needed not amongst the men,
They work among the ladies.
And babies do not go to War.
And fight for UNCLE SAM.
Their left to keep the home front warm.
And grow into big men.
And how can they I'd like to know.
With all their pains and bubbles.
If they don't have their Doctors here.
To straighten out their troubles.
For ever since the Lord made Eve.
And placed her in ghe garden.
There's trouble on the infant front.
And they sure need a warden.
And their not born on battle front.
Or on the "BURMA" Way.
And so I plead for Nature's sake.
Let baby doctors stay.

Nellie I. Thomas
